# CHAIRMAN'S LETTER

At OZAAK CO. Inc., we believe engineering is not only about building structures, but also about creating lasting value for people, communities, and industries. Since 2006, we have delivered reliable solutions across construction, infrastructure, energy, and environmental engineering, guided by quality, integrity, and long-term performance.

From large-scale civil works to renewable energy and wastewater treatment projects, we combine technical expertise with practical execution to meet the evolving needs of our partners in Türkiye and abroad. In every project, our goal is to deliver safe, efficient, and sustainable solutions that stand the test of time.

As we look to the future, we remain committed to strengthening our international presence, investing in innovation, and building trusted partnerships across global markets. For us, success is not a destination, but a responsibility to keep improving.

**Osman Mutlu**

**Chairman**

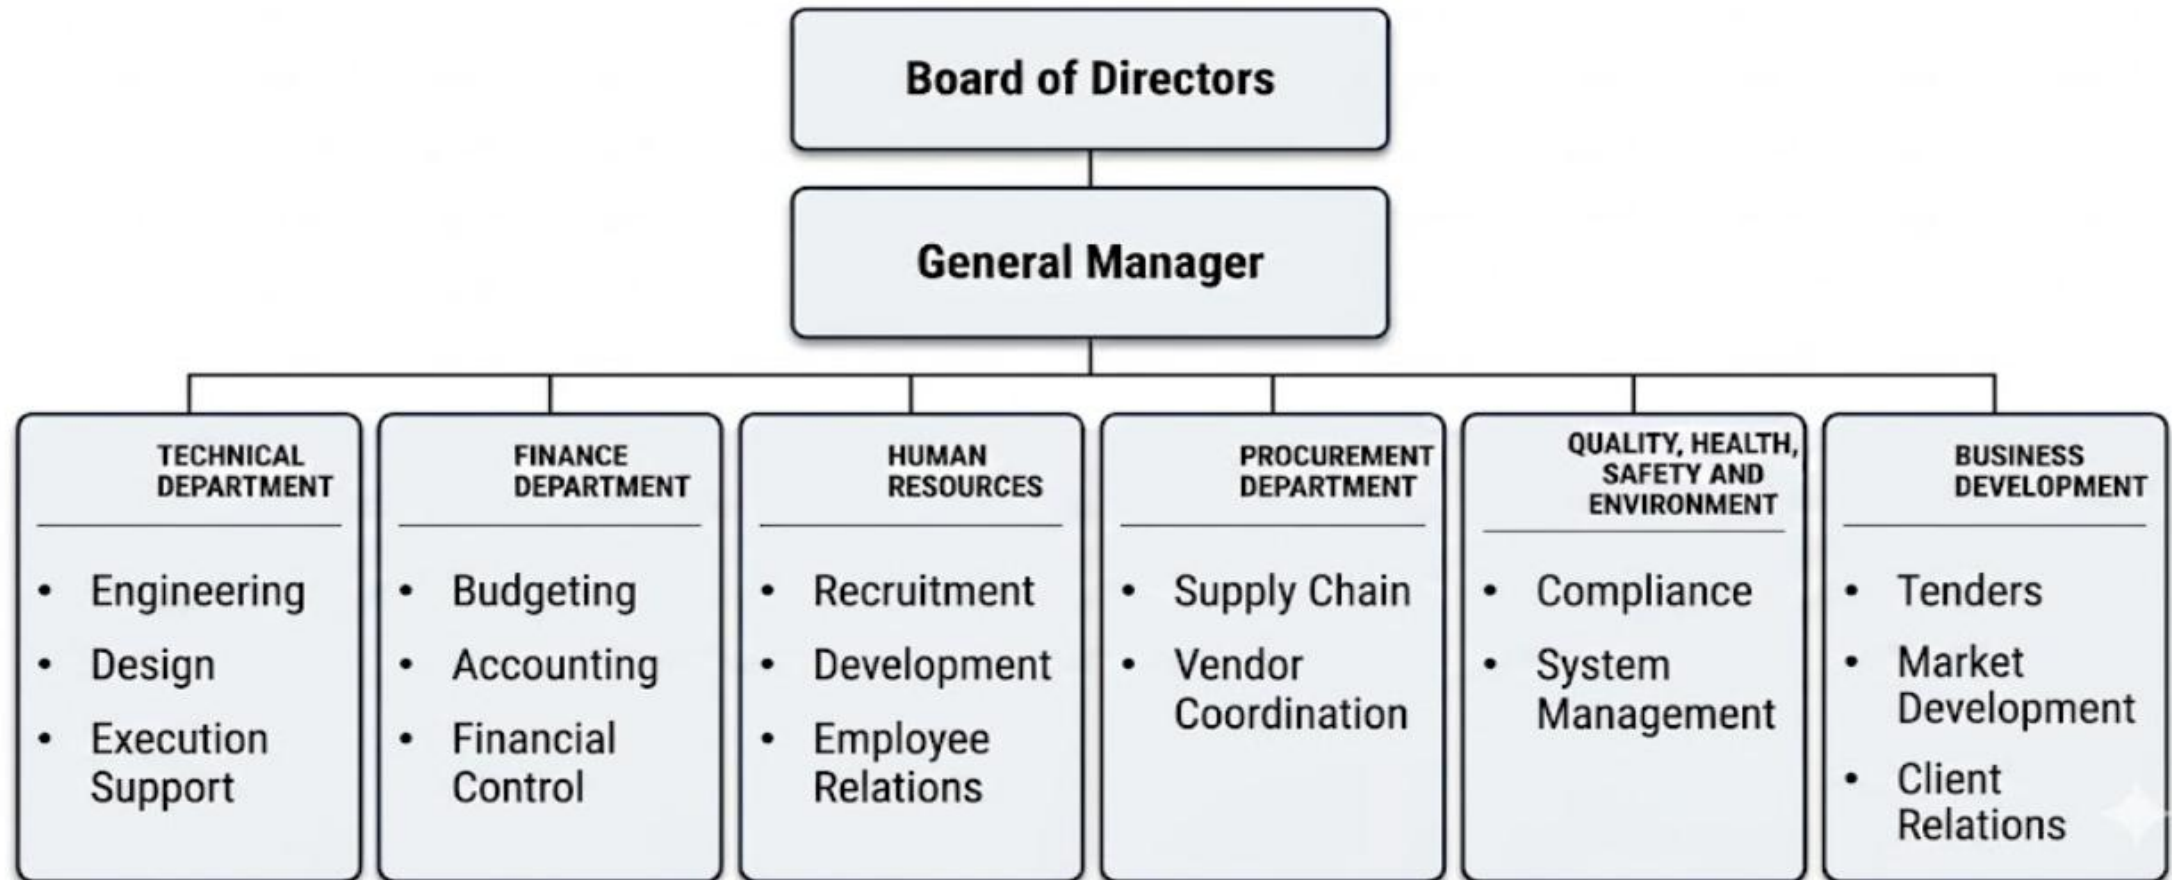

# INTRODUCTION

Founded in 2006, OZAAK CO. Inc. is a multidisciplinary engineering and construction company operating across energy, infrastructure, environmental engineering, superstructure, telecommunications, and industrial sectors. Serving both public and private sector clients, the company delivers project-specific solutions that combine technical expertise, operational capability, and disciplined execution.

With more than 400 completed projects, OZAAK CO. Inc. has built a strong reputation for quality, safety, efficiency, and on-time delivery. Backed by experienced teams and a commitment to long-term performance, the company continues to expand its presence as a trusted partner in Türkiye and international markets.

# GLOBAL PRESENCE

# SUSTAINABLE QUALITY

## **Certification**

At OZAAC CO. Inc., we successfully deliver high-quality projects on time through our national and international experience.

We value our employees' commitment to maintaining and improving quality standards in line with our company's proactive and innovative vision. As a result, we ensure that all our employees receive the necessary training to keep up with sectoral and professional innovations.

## **Safety & Quality**

Security and quality are non-negotiable priorities for us. Our team ensures the protection of both our employees and your property by adhering to the highest security and quality standards.

# ENVIRONMENTAL ENGINEERING

- OZAAK CO. Inc. delivers reliable and sustainable environmental engineering solutions with a strong focus on wastewater treatment and related infrastructure. With experience in both municipal and industrial facilities, the company provides project-specific solutions that combine engineering quality, regulatory compliance, operational efficiency, and long-term performance.

The projects presented in this section reflect OZAAK's capability to execute environmental engineering works from civil construction to process-based treatment applications, while maintaining its commitment to quality, timely delivery and customer satisfaction.

Food Production Facilities

Paper, Cardboard and Packaging

HEPP and Thermal Power Plants

Shipyard, Port and Marine Structures

Highways and Railways

Mine Production Facilities

Tunnels, Bridges and Viaducts

Building and Superstructure Works

Electricity Transmission and Substations

# CONSTRUCTION AND CIVIL WORKS

- We deliver comprehensive construction and civil works solutions across a broad range of industries.

# PETROCHEMICAL AND REFINERY PROJECTS

- OZAAC CO. Inc. provides comprehensive engineering and construction services for the petrochemical and refinery industries. Our experienced teams deliver high-quality infrastructure solutions for refineries, petrochemical complexes, and chemical processing facilities, working alongside the sector's leading companies.

## OIL AND GAS PIPELINES

- OZAAK CO. Inc. offers expert pipeline construction and maintenance services for the oil and gas industry. From cross-country transmission pipelines to distribution networks and station facilities, our specialized teams ensure safe and efficient pipeline infrastructure delivery.

## DAMS AND IRRIGATION PROJECTS

- OZAAC CO. Inc. contributes to critical water infrastructure through its involvement in dam construction, irrigation systems, and water conveyance projects. Our teams bring engineering excellence to these essential public infrastructure works.

# IRON AND STEEL FACTORIES

- OZAAK CO. Inc. delivers specialized construction and installation services for the iron and steel industry. From integrated steel mills to mini mills and rolling facilities, our teams handle the demanding requirements of heavy industrial construction.

# SHIPBUILDING AND OIL REFINERIES

- OZAAK CO. Inc. provides construction and outfitting services across the shipbuilding and marine oil refinery sectors. Our skilled workforce delivers precision metalwork, piping, and structural installations for vessels and offshore facilities

# CHEMICAL PLANT PROJECTS

- OZAAK CO. Inc. provides engineering and construction services for chemical processing facilities, pharmaceutical plants, and specialty chemical production units. Our expertise covers the full range of chemical plant infrastructure requirements.

## CEMENT FACTORIES

- OZAAK CO. Inc. constructs and maintains cement production facilities, from raw material handling to clinker production and cement grinding. Our experience in heavy industrial construction ensures reliable delivery of these complex manufacturing plants.

# FOOD PRODUCTION FACILITIES

- OZAAC CO. Inc. constructs state-of-the-art food production and processing facilities that comply with international food safety standards. From dairy plants to beverage factories and meat processing facilities, we deliver hygienic, efficient production environments.

## PAPER, CARDBOARD AND PACKAGING

- OZAAK CO. Inc. provides construction and installation services for the paper, cardboard, and packaging industry. Our teams handle the complex mechanical and civil works required for these large-scale manufacturing facilities.

# HYDROELECTRIC AND THERMAL POWER PLANTS

- OZAAK CO. Inc. provides construction services for power generation facilities including hydroelectric power plants (HEPP), coal-fired thermal power plants, and natural gas combined cycle plants. Our teams deliver the infrastructure that powers the nation.

# SHIPYARD, PORT AND MARINE STRUCTURES

- OZAAK CO. Inc. delivers construction services for ports, harbors, shipyard facilities, and marine infrastructure. From breakwater construction to container terminal development, our teams work in challenging marine environments.

# HIGHWAYS AND RAILWAYS

- OZAAK CO. Inc. constructs transportation infrastructure including highways, motorways, railway lines, and associated structures. Our teams handle earthworks, pavement construction, and all related civil engineering works.

# TUNNELS, BRIDGES AND VIADUCTS

- OZAAK CO. Inc. delivers complex civil engineering structures including road and railway tunnels, bridges, and viaducts. Our specialized teams handle the demanding technical requirements of these critical transportation structures.

# BUILDINGS AND SUPERSTRUCTURE WORKS

- OZAAK CO. Inc. constructs buildings and superstructures for public institutions, healthcare, education, and commercial sectors. From hospitals to government buildings, our teams deliver high-quality construction, meeting the most demanding specifications.

# ELECTRICITY TRANSMISSION AND SUBSTATIONS

- OZAAC CO. Inc. builds the critical infrastructure that transmits and distributes electrical power. From high-voltage transmission lines to transformer substations, our teams ensure reliable power delivery across the grid.
